

Model 1001pH pH Transmitter

Features

- Accurate 4-20mA output corresponding to 0-14pH input.
- Calibration of pH-7 and pH-4 on front panel
- DIN Rail Mounting enclosure
- Auto Temp Compensation using PT100

Specifications

- Output : 4-20mA => 0-14.00pH
- Termination Impedance : 400Ω
- Range : 0.00 to 14.00 pH
- Auto Temp. Compensation: 0-100°C using PT100 external sensor
- Calibration : Standard pH-7 : 7.00 ± 1
Slope pH-4 : 4.00 ± 1
- Accuracy : 0.5% ± 1 Digit
- Input Impedance : >10¹² Ω
- Supply : 220V AC ± 10% at 50Hz/60Hz
- Size : 70x60x110mm
- Enclosure : Plastic (ABS) flame retardant
- Weight : 800gms
